Summary

Software Engineer with experience building production grade SaaS, AI, and real-time applications. Proven track record of leading projects, shipping products, and working directly with clients in fast-paced environments.

Experience

Software Development Engineer

Blockland India

Remote

Oct 2025 - Present

- Led development and deployment of 4 AI software products across mobile and web platforms.
- Reduced feature delivery time by 30% through agile software development workflows and team coordination.

Full Stack Developer Intern

Indominus Labs

Remote

Oct 2023 - Sept 2025

- Built AI voice agents and full stack web apps across attendance, automation, and civil engineering domains.
- Led development of a geo-fenced facial attendance platform, projected to reduce attendance fraud by 60%, with secure authentication and attendance validation workflows.

Full Stack Developer Intern

Digital Fortress Pvt Ltd

IIEC, VIT-AP University

Jan 2024 - Jun 2024

- Revamped and launched the official company website, increasing user engagement by 40%.
- Gained proficiency in AWS and Azure, deploying secure and scalable cloud solutions.

Projects

Real Time Online Examination System – Web App for CID Recruitment

May 2025 - Jun 2025

- Built and deployed India's first real-time online examination platform for CID recruitment, enabling secure assessments for 1,500+ concurrent candidates.
- Automated evaluation and result generation using Python, reducing processing time from hours to minutes with 99.9% grading accuracy.
- Architected JWT-based authentication, RBAC, and production deployment infrastructure, maintaining 99.5% uptime during the recruitment cycle.

Multi-Tenant Hospital Information Management System (CQ HIMS)

[Know More](#) 

- Architected multi tenant SaaS HIMS in production at a hospital, covering 20+ clinical and financial modules.
- Built a payroll & doctor revenue-sharing engine (salary, fee-share, hybrid) with automated RazorpayX payouts.
- Shipped Razorpay payments, WhatsApp automation, RBAC, encryption, and audit trails.

Education

VIT-AP University, Amaravati, AP

B.Tech in Computer Science with specialization in AIML — CGPA: 8.5

Sep 2022 - Jun 2026

Technical Skills

Java, Python — NoSQL, SQL, PostgreSQL — Flask, Django, FastAPI — Next.js, React, JavaScript — AWS, Azure — Git, GitHub — Cybersecurity — DSA, DBMS, OOPs — RAG Systems, AI Agents, LLM Integration

Awards and Certifications

Winners of 24Hr. National Hackathon organized by AIC ALEAP WEHUB

Sept 2024

Awarded a **Rs 1 lakh** grant for our startup, Digital Fortress. Served as team leader.

AWS Academy Graduate — AWS Academy Cloud Foundations by AWS Academy

Nov 2024
